Welcome to our 2022/2023 catalogue!

This catalogue showcases our range of printed books, ebooks and lecturer support material designed to support the need of lecturers and students in the rapidly evolving educational environment.

Van Schaik Publishers is committed to being accessible, affordable and African. We believe that we have a vital role to play in moving Africa into a world where educational resources are in line with the needs of our local conditions, local students, and local institutions. We have worked since 1915 to play our part in ensuring that no student should be alienated by content that is unfamiliar, or prices that are unaffordable, and we have made a commitment to developing decolonised material through consultations with authors, academics and reviewers.

Our commitment extends to teaching and learning materials that are designed for South African conditions – books that speak to local conditions and digital resources that are accessible to all.

The last section of the catalogue – Research, Reference & Student Support – is relevant to all academic disciplines. Van Schaik Publishers has an extensive collection of South African textbooks and reference books explaining the challenges of producing academic research. This section also contains a large collection of resources for students and lecturers needing help with skills ranging from academic writing to study and life skills.

Please contact us if you would like to discuss access to our digital resources in alternative formats. Given the right conditions, new or additional resources may be developed, or formats may be changed to suit different conditions and needs.

We are always looking for local authors and content developers to help in the quest to build a regional knowledge base in southern Africa. A brief overview of the process and contact details can be found in the opening pages of the catalogue. You will also find purchase options and contact details for lecturers seeking inspection copies should a book or resource seem suitable as a prescribed book.

We look forward to another fruitful year of collaboration with academics, students, bookstores and institutions. As we tentatively emerge into this new, post-Covid landscape, let us remember that together we are stronger.

Yours in education

Marius du Plessis
Business Development Manager
TO PURCHASE A VAN SCHAIK PUBLISHERS TITLE

- Go to your nearest academic bookstore.
- Purchase ebooks from www.vanschaik.com, store.snaplify.com, store.it.si/za or any other reputable South African ebook vendor.
- Contact Customer Services:
  - Orders: email orders@vanschaiknet.com or phone 011 601 8118
  - Queries: email services@vanschaiknet.com or phone 011 601 8118
  - Returns: email returns@vanschaiknet.com or phone 011 601 8118
  - Credit Control: email noxolo.zwane@jonathanball.co.za or phone 011 601 8118

Please note that Van Schaik Publishers and Van Schaik Bookstore are two separate companies. For enquiries and book orders that are not related to Van Schaik Publishers, please contact Van Schaik Bookstore Direct Sales at 021 918 8410 or directsales@vanschaik.com, or go to www.vanschaik.com.

INSPECTION COPIES

If you are a lecturer and would like to evaluate a title for possible prescription, please click on this link and complete the online form: https://bit.ly/VSPinspection

ADOPTIONS

Should you decide to prescribe one of our titles, please notify your nearest academic bookshop to ensure that they order stock for your students. For further assistance, please contact Shé Naidoo at she.naidoo@vanschaiknet.com or 012 342 2765.

COPYRIGHT

To apply for copyright permission for Van Schaik Publishers material, contact Selina Bojosi at copyright@vanschaiknet.com or 012 342 2765. It is necessary to apply for copyright permission when you want to reproduce material from a Van Schaik Publishers publication in any form and for any reason. The fee will be based on how much material is used and the number of copies reproduced.

Please include the following in your request:
- Title and ISBN of the Van Schaik Publishers publication
- The pages you would like to use from our publication
- The purpose for which you wish to use the material
- Details of your own publication (title, author, publication date, print run, etc.)

VAN SCHAIK PUBLISHERS’ RETURNS POLICY FOR BOOKSTORES

As is the norm in the publishing industry, Van Schaik Publishers has a formal returns policy in place for bookstores wishing to return excess stock. Our returns policy can be viewed on our website or you can contact Shé Naidoo if you require a copy of this document. Her email address is she.naidoo@vanschaiknet.com.

A NOTE TO PROSPECTIVE AUTHORS

Should you wish to submit a proposal for a manuscript, please send an email to publishing@vanschaiknet.com. Supply a short description of your idea as well as your contact information. The relevant publisher will send you a document to complete in which you will describe your proposed manuscript in detail. On receipt of a full proposal, the publisher will conduct market research in order to determine the viability of your proposed manuscript. You are welcome to visit our website at www.vanschaiknet.com where you will be able to download a variety of author guidelines. Please note that we are a tertiary publishing house and only proposals that are suitable for the higher education market will be considered.

General Manager/Hoofbestuurder: J Read
Part of taking responsibility is showing respect for the work of others. Always be aware that this material is the result of hours, weeks, sometimes years of hard work. It has been created and published by academics in South Africa and globally, who have written down knowledge gained through their own studies and research. This is their intellectual knowledge that they are passing on to you and it should at all times be acknowledged as theirs. This material is commonly known as Intellectual Property and protected by Copyright. Using such material without permission from, and acknowledgement of, the copyright holder is illegal, as it infringes the rights of the creator or author. Illegal photocopying and file sharing also fall into this category as it applies to printed or digital intellectual property. One day you may pass your intellectual knowledge on to a younger generation via a textbook or a journal article and you would then hope they treat what is yours with the respect it deserves. It would be your legal right to expect this.
What is available?

In line with the worldwide trend in publishing, Van Schaik Publishers offers an extensive range of our titles as ebooks with all new titles being published in both print and digital formats. We currently have over 300 titles available as ebooks and the list is growing.

All of our titles that are available as ebooks have an ‘eISBN’ listed in their descriptions.

Please do not hesitate to contact us if there is a title that you would like to prescribe that is currently not available in the required ebook format.

New possibilities

The digitising of our titles has opened a whole new world of possibilities.

Think: enhancements, customisation, selected chapters, interaction, built-in assessments, integration etc.

Contact us to discuss the possibilities of how we can enhance your prescribed digital content.

Where to buy

Our ebooks are available from a number of retailers, including:

- vanschaik.com
- store.snapplify.com
- store.it.si/za
- kortext.com

Contact Van Schaik Publishers directly for institutional sales and licensing agreements.

Contact us

If you would like more information on our ebook publishing programme or are interested in prescribing a textbook in ebook format, please contact Shelley Swanepoel at 012 342 2765 or digital@vanschaiknet.com.
Resources for lecturers

We are here to help you!

Lecturer resources are available free to lecturers who lecture on courses where the book is prescribed.

Please visit our online catalogue (www.vanschaiknet.com/catalogue) for more information on what resources are available for your prescribed title and how to register and download resources.

Look out for the LSM logo in this catalogue to see which titles have additional support material for lecturers.

Resources for students

Student resources are now available on selected titles and will be included with the lecturer’s support material.

These resources may be distributed to all students using the prescribed textbook.

Speak to your representative or contact us for more details.

Contact us

Should you wish to view a sample or order any of the material listed above, please call or write to Shé Naidoo at 012 342 2765 or she.naidoo@vanschaiknet.com.

For any query or feedback on resource material content, please contact our digital publisher at lsm@vanschaiknet.com.
Natural and Agricultural Sciences
GAME RANCH MANAGEMENT

Sixth edition
J. du P. Bothma & J.G. du Toit (Editors)
1012 pages; 2016
Hard cover
ISBN: 978 0 627 03346 9 – R1 320.00
eISBN: 978 0 627 03490 9 – R1 188.00

A comprehensive guide for wildlife ranchers in South Africa. Includes economics of the wildlife industry, marketing, and legislation and codes of conduct. Aimed at undergraduate and postgraduate students, and current and future owners of extensive wildlife production units.

Contents include the following:

• Bacterial, viral and protozoal diseases of wildlife
• Buying and selling of wild animals
• Hunting, keeping and managing large terrestrial carnivores
• Trophy hunting
• Meat production
• Veld management and habitat rehabilitation
• Genetic management
• Medical assistance in the field
• Falconry
WILDPLAASBESTUUR

Vyfde uitgawe
J. du P. Bothma & J.G. du Toit (Redakteurs)
Hardeband
1000 bladsye; 2021
ISBN: 978 0 627 03573 9 – R1 320.00
eISBN: 978 0 627 03574 6 – R1 188.00

’n Omvattende gids tot die vestiging en instandhouding van ’n winsgewende wildplaas. ‘n Uitstekende algemene inligtingsbron oor wildsoorte in Suid-Afrika. Gemik op voor- en nagraadse studente in natuurlewe- en wildplaasbestuur, en op huidige en toekomstige eienaars van ekstensiewe wildproduksie-eenhede.

Inhoud:
• Wildplaasbeplanning
• Bemarking van ’n wildplaas
• Genetiese bestuur en nadoodse ondersoek
• Vangs van wilde diere
• Aankoop en verkoop van wild
• Oes en hantering van wildsvleis
• Jag (onder andere boogjag en pynsafari’s)
• Habitatbestuur
• Wildproduksie en landelike gemeenskappe
The basic principles of financial farming management, analysis and control, presented in an easy, accessible style with numerous examples. Discusses the impact of rising costs, lower product prices and escalating interest rates on the purchase of farming land and how these factors are forcing farmers to develop their business acumen and managerial skills optimally in order to manage their farming enterprises as economically as possible. Aimed at farmers and students studying farm management.

Contents include the following:
- Financial analysis, planning and control in perspective
- Farm management information systems: requirements and auxiliary statements
- Farm management information systems: analysis and interpretation
- Financial planning: development of a farming strategy
- Financial planning: auxiliary budgets
- Interest tables

*Also available in Afrikaans:
FARM MANAGEMENT – FINANCING, INVESTMENT AND HUMAN RESOURCES MANAGEMENT

M.J. van Reenen, A. De K. Marais & P.S. Nel
302 pages; 1995
ISBN: 978 0 627 02010 0 – R650.00
eISBN: 978 0 627 03354 4 – R585.00

Guidelines for rational financial and investment decisions and for appropriate management of human resources and labour relations on farms. Aimed at farmers and students studying farm management.

Contents include the following:
• Capital requirements, forms and sources
• Financing policy of a farming enterprise
• Right to use land
• Management of farm machinery and buildings
• Investment of funds
• Human resources management
• Labour relations
• Interest tables

*Also available in Afrikaans:

BOERDERYBESTUUR – FINANSIERING, INVESTERING EN MENSLIKEHULPBRONBESTUUR

M.J. van Reenen, A. De K. Marais & P.S. Nel
318 bladsye; 1994
ISBN: 978 0 627 01917 3 – R650.00
eISBN: 978 0 627 03356 8 – R585.00
ANIMAL NUTRITION – CONCEPTS AND APPLICATIONS

Second edition
P.A. Boyazoglu
320 pages; 1999
ISBN: 978 0 627 02248 7 – R665.00

A guide to the nutritional needs of various farm animals. Provides data that are universally acknowledged as being relevant and beneficial for a species.

Contents include the following:
• Livestock industry
• Composition of feeds
• Physiology of digestion
• Vitamins and their requirements
• Proteins and amino acids
• Submaintenance feeding for survival
• Nutrition’s role in disease resistance
• Dairy cattle nutrition and production
• Beef cattle nutrition
• Sheep, goat and pig nutrition and imbalances
• Horse nutrition for breeding purposes
• Ostrich nutrition
• Wildlife nutrition
• Nutrition of cats and dogs
• Commercial poultry nutrition
ENVIRONMENTAL IMPACT ASSESSMENT – A PRACTICAL GUIDE FOR THE DISCERNING PRACTITIONER

P.J. Aucamp
160 pages; 2009
ISBN: 978 0 627 02679 9 – R575.00
eISBN: 978 0 627 02856 4 – R517.50

A practical guide collating most of the existing important information regarding the environmental impact assessment (EIA) process in one compact volume. Follows the logical progression of an EIA using international best practice techniques and principles and sets a baseline for EIA in South Africa. The first book on this topic written specifically for the South African context, although it is applicable to all developing countries. Aimed at environmental professionals and students entering the field for the first time.

Contents include the following:
• EIA legislation
• Screening
• Scoping
• Stakeholder involvement process
• Identification and comparative assessment of alternatives
• Environmental risk assessment and management
Game capture techniques and consequent animal behaviour. Covers the entire process from capture to final release of various species in southern Africa, including species requirements in terms of logistics and the level of stress with which each individual can cope.

Contents include the following:

- Ethical considerations
- Planning a capture operation
- Drugs used in the capture of wildlife
- Delivery systems for chemical capture
- General darting procedures and other non-mass capture techniques
- Mass capture techniques
- Capture and management of large herbivores and large and small plains game
- Carnivores
- Transportation of animals and specialised equipment
- Vehicles and specialised loading equipment
- Choice and use of helicopters as a capture tool
- Loading, transportation and unloading of wild animals
- Bomas and temporary holding facilities
- Culling as a management option
A summary of current knowledge on intensive farming of wild animals in southern Africa. Based on the extensive experience of various authorities.

Contents include the following:

- Elephant
- White and black rhinoceros
- African savanna buffalo
- Eland
- Roan and sable antelope
- Kudu
- Nyala
- Impala
- Bushbuck
- Springbok
- Duiker
- Steenbok
- Wild dog
- Nile crocodile
- Ostrich
In hierdie verbeterde, uitgebreide en aangepaste uitgawe van Algemende Plantkunde is die benadering steeds om basiese plantkunde, die vakwetenskap wat oor plante handel, aan studente bekend te stel. Die boek bied aan studente op voorgraadse vlak ’n waardevolle biologies-wetenskaplike basis. Die skrywers, onder leiding van HP van der Schijff, is gemoeid met die bekende, byna klassieke, maar tog moderne vorm van plantkunde om sodoende die hedendaagse student en navorser tot diens te wees, en aan hom/haar ’n onderbou te gee in die werklighheid van vorm, bou, funksie en voortplanting van die plante waarmee hy/sy werk.

**Inhoud:**
- Organografie
- Anatomie
- Sitologie en genetika
- Taksonomie
- Ekologie
Basic and applied microbiology gives a fresh perspective on microbiology. It deals with some of the important issues of the day, including genetically modified food; the increased incidence of food- and waterborne diseases and their control; the introduction of HACCP legislation worldwide; microbial resistance to antimicrobial compounds and the development of multiple drug-resistant organisms; the alleviation of environmental pollution using bioremediation and biofouling; and biocorrosion in water systems, to mention just a few.

The book is supported by an e-learning platform with a comprehensive set of animations explaining the basic concepts. The Web portal accompanying the book also provides a gateway to carefully selected internet sites, unlocking the world of microbiology for the experienced microbiologist and the uninitiated alike.

Contents include the following:

- Introduction, history and biotechnology perspectives
- The structure and function of viruses and bacteria
- Microbial growth and nutrition
- Taxonomy
- Microbial genetics
- Chemical and physical control of microorganisms
- Food and water microbiology
- Environmental microbiology
- Applied biotechnology
A coherent survey and explanation of many crucial issues relating to the supply and demand of water in South Africa. Includes economic mechanisms and their impact on production, distribution and socioeconomic integration.

Contents include the following:

- Basic needs approach to development thinking
- Hydrologic cycles I and II
- Water availability and demand in South Africa
- Water supply and demand management
- Water market and government intervention
- Cost-benefit analysis
- Welfare economic considerations
- Water pricing, practice and problems
Research, Reference and Student Support
Studente word begelei om die skryf van akademiese tekste op 'n sistematiese wyse te benader; opdragte te ontleed en te beplan; relevante vakinhoud in te samel en met begrip te lees; navorsing, kennis en afleidings op 'n gestruktureerde wyse in goed geformuleerde taal weer te gee sodat dit 'n samehangende geheel vorm; en terugvoer op akademiese tekste te verwerk ten einde as akademiese skrywers te groei.

Inhoud:
- Ontleding van opdraginstruksies en beplanning van 'n akademiese skryfstuk
- Akademiese bronsoektogte en brongebruik
- Akademiese leesstrategieë, en die verwerking van inligting uit bronne
- Titels, inhoudsopgawes en inleidingsparagrawe
- Akademiese paragrawe in akademiese tekste
- Tekseenheid in akademiese tekste
- Struktuur van 'n akademiese slotparagraaf
- Wetenskaplike en akademiese skryfstyl
- Redigering van akademiese werkstukke en verwerking van terugvoer
ASSIGNMENT WRITING

J. Steyn (Editor)
54 pages; 2013
ISBN: 978 0 627 03129 8 – R170.00
eISBN: 978 0 627 03158 8 – R153.00

A concise guide to compiling assignments of a standard required by post-secondary school institutions. Uses practical examples to illustrate clearly how to approach and write assignments. Aimed at tertiary-level students.

Contents include the following:
• The process of assessing, planning, writing, editing and handing in an assignment
• Technical requirements, such as the use of scientific language, abbreviations, tables and figures as well as neatness and binding
• Referencing techniques and the compilation of a list of sources
• Formatting the document, from cover to cover
NEW PUBLICATION

COMMUNITY ENGAGEMENT RESEARCH IN SOUTH AFRICA – HISTORIES, METHODS, THEORIES AND PRACTICE

E.S. van Eeden, I. Eloff & H. Dippenaar (Editors)
555 pages; 2022
ISBN: 978 0 627 03793 1 – R525.00
eISBN: 978 0 627 03794 8 – R472.50

A look at a transformative model for community engagement, in which societal involvement is the driving force behind all research activities of a university. Prepares students to be agents for positive social change in all spheres of life.

Contents include the following:

• Reflections on the process of ethical co-creation of knowledge with community partners
• International collaboration in community intervention programmes
• Inclusive community engagement studies
• On the researcher–researched relationship in educational psychological research with vulnerable populations
• Engagement with mining-affected communities
• Moving community engagement in South Africa from rhetoric to reality through engaged scholarship
• Towards a live project framework for community engagement in South Africa
• The Sustainable Development Goals and community-based collaboration and research
DEVELOPING SOFT SKILLS FOR SUCCESS – A GUIDE FOR MODERN PROFESSIONALS

B.E. Jonker & N.D.P. Mtshelwane (Editors)
216 pages; 2021
ISBN: 978 0 627 03797 9 – R380.00
eISBN: 978 0 627 03798 6 – R342.00

A foundation for cultivating excellence in emerging leaders. Offers fresh, current and applicable content from a southern African perspective, including practical group and individual exercises to facilitate learning in an interactive, challenging and fun way. Aimed at students in higher education as well as practising professionals and managers.

Contents include the following:

• Setting goals for success
• Career self-management skills – employability and graduate attributes
• Career development for professional success
• Personal branding for professional success
• Digital skills development for success
• The art of professional networking for success
• Professional communication for success
• Managing a diverse workforce for success
• Organisational change for success
• Ethics for success
A theoretical and practical guide on how to conduct and report on research at undergraduate and postgraduate level. Uses the most current perspectives in the field, both locally and internationally, to facilitate the understanding and application of theories, goals, methods and strategies. Aimed at scholars, academics, researchers, and Master’s and doctoral students who are conceptualising and conducting research.

Contents include the following:

- Formulating research questions
- Conceptualising and writing research proposals
- Conducting a preliminary literature review
- Ethical considerations
- Interpreting data
- Sampling methods
- Basic probability rules
- Basic statistical methods and tests/techniques
- Employing online and technical instruments in the areas of literature review, data collection and data analysis
- Mixed-methods (avant garde) frameworks
NEW PUBLICATION

FUNDAMENTALS OF RESEARCH IN HUMANITIES, SOCIAL SCIENCES AND SCIENCE EDUCATION – A PRACTICAL STEP-BY-STEP APPROACH TO A SUCCESSFUL JOURNEY

E.O. Adu & C.I.O. Okeke (Editors)

284 pages; 2022
ISBN: 978 0 627 03883 9 – R420.00
eISBN: 978 0 627 03884 6 – R378.00

A step-by-step guide to the research endeavour, from the selection and formulation of a research problem, to the writing or reporting, to the publication of research results. Aimed at students and novice researchers.

Contents, among others, include the following:

- Identification and selection of a research topic
- Dynamics of a good research problem statement
- Designing the main and the sub-research questions
- The essence of the literature review
- Research designs: meaning, rationales and types
- The research study site
- Target population, samples and sample selection
- Data collection procedures
- Data analysis and interpretation procedures
- Ethical issues in humanities, social sciences and science education
- Presentation of research results
- Writing a good conclusion to a study
- Avoiding plagiarism and writing good references in research
A guide to the management of postgraduate research studies that is essential for every student who embarks on a Master’s degree or doctorate, irrespective of the field of study.

Contents include the following:

- Step 1: Getting started
- Step 2: Working with a supervisor
- Step 3: Scanning the field of study
- Step 4: Developing the research proposal
- Step 5: Managing research resources
- Step 6: Undertaking a comprehensive review of the literature
- Step 7: The research process
- Step 8: Organising and writing the thesis
INFORMATION TECHNOLOGY RESEARCH – A PRACTICAL GUIDE FOR COMPUTER SCIENCE AND INFORMATICS

Third edition
M.S. Olivier
184 pages; 2009
ISBN: 978 0 627 02758 1 – R465.00
eISBN: 978 0 627 02874 8 – R418.50

A guide to identifying, observing and mastering research methods through the study of existing research reports (such as journal and conference papers, dissertations and theses) that have been used successfully at a number of universities and universities of technology. Provides exercises at the end of each chapter to encourage students to apply various research methods to research problems of their own. Aimed at senior students in information technology, including computer science, informatics and information systems, as well as new researchers outside the formal academic environment.

Contents include the following:
• Rational problem solving
• Project design
• Formalities, psychology, ethics and philosophy
• Research proposal
• Experiment design
• Using statistics
• Becoming an established researcher
A step-by-step approach to the fundamentals of research. Guides the novice researcher through the research process, including how to choose the appropriate research methodology and how to adhere to the standards for conducting ethical research. Aimed at all students and researchers, across a variety of disciplines.

Contents include the following:

- Ethical practices in research
- Sources for scientific research topics
- Demarcation of the research problem
- Formulating a hypothesis
- Preparing for a literature review and the development of a theoretical framework
- Writing the research proposal
- Preliminary investigation and research techniques
- Data analysis
- Writing the research report
An essential workbook for everyone wanting to reach their full potential, both personally and professionally. Explains how to manage social, academic and work environments effectively as the key to personal success. Aimed primarily at learners preparing to enter the world of work, and learners who are forming new types of relationships, redefining themselves and beginning to establish their identities as adults and workers.

Contents include the following:

- Student life and adjustment to life on campus, and lecture and study skills
- Self-directed learning, time management, career planning and motivation
- Coping with cultural diversity and change
- Conflict management, problem solving and decision making
- Interpersonal relationships and healthy living (including HIV and AIDS, drug abuse and pregnancy)
- Self-image, assertiveness and stress
- Critical and analytical thinking
- Helping skills, trauma, loss and bereavement
- CVs and portfolios, job searches and interviews
- Ethics and professional behaviour in the workplace
MAKING SENSE OF RESEARCH

K.G. Tomaselli (Editor)
480 pages; 2018
ISBN: 978 0 627 03601 9 – R585.00
eISBN: 978 0 627 03602 6 – R526.50

The unpacking of research as a technical and methodical process which starts with framing interesting questions and culminates in credible findings. Designed to take students beyond the messy experiential realm into what actually happens when getting registered, writing proposals, being examined and eventually crossing the stage to be capped. Aimed at all research students.

Contents include the following:

• Academic architecture and why history matters
• How to do it (research)
• Thematic techniques
• Ethnographic, reception, visual and textual methods
• Getting published
• Some words on deconstructing deconstruction
• Getting technically oriented
• Getting conceptually orientated
NAVORSING – ’N GIDS VIR DIE BEGINNERNAVORSER
(NUWE UITGAWE IN VOORBEREIDING)

I. Joubert, C. Hartell & K. Lombard (Redakteurs)
478 bladsye; 2016
ISBN: 978 0 627 03291 2 – R430.00
eISBN: 978 0 627 03483 1 – R387.00

Inhoud:
• Deel 1: Algemeen
• Deel 2: Kwalitatiewe navorsing
• Deel 3: Kwantitatiewe navorsing
• Deel 4: Addisionele benaderings tot navorsing
• Deel 5: Verslagdoening
NORME VIR AFRIKAANS – MODERNE STANDAARDAFRIKAANS

Sesde uitgawe
W.A.M. Carstens
550 bladsye; 2018
ISBN: 978 0 627 03609 5 – R590.00
eISBN: 978 0 627 03610 1 – R531.00

’n Naslaanbron met ’n fokus op die norme wat in gedagte gehou word by die praktiese gebruik van Afrikaans. Daar word rekening gehou met die geleidelike herstandaardisering van Afrikaans. Die riglyne van die elfde uitgawe van die Afrikaanse woordelys en spelreëls (2017) is volledig in hierdie uitgawe vervat.

Inhoud:
• Taalnorme: ’n algemene perspektief
• Universele norme
• Interne norme van Afrikaans: sintaksis en morfologie
• Interne norm van Afrikaans: semantiek
• Eksterne norm: die norm van spelling en interpunksie
• Eksterne norm: die norm van die standaardtaal
• Eksterne norm: die norm van taalsuiwerheid
• Eksterne norm: die norm van styl
• Eksterne norm: die norm van naslaanbrane en woordeboeke
• Konvensies by die skryf van korrespondensiestukke in Afrikaans
PERSONALFINANCE

C. Duvenhage & N. Keyser (Editors)
240 pages; 2021
ISBN: 978 0 627 03815 0 – R445.00
eISBN: 978 0 627 03816 7 – R400.50

A guide to good financial decision making that will empower people to manage their money better and so maximise their opportunities and lead more fulfilling lives. Encompasses many areas and core topics such as cash flow management, savings, debt, housing and planning for the future. Aimed at students as well as the average South African on the street needing guidance on managing household financial matters.

Contents include the following:

• The macroeconomic environment, economic variables and personal finance
• Time value of money
• Investments: equity/stocks (shares); fixed equity; listed property; unit trusts/collective investment schemes
• Personal finance: banking services and products
• Managing credit
• Insurance and assurance
• Retirement
An explanation of the relationship between philosophy and research with the objective of advancing critical thinking skills. Takes a practical, problem-solving approach to demystifying philosophy for education students at all levels of study. Sets out terminology and the origin of theories in the education curriculum within the context of South Africa’s history and societal change. Aimed at students and researchers across disciplines who want to understand the philosophical underpinnings of education and research.

Contents include the following:

- Paradigms, theoretical frameworks and conceptual frameworks in educational research
- An Afrocentric paradigm in education and research
- Comparative perspectives in philosophy of education in Africa
- Sociological imperatives for education and the theory of change
- Philosophy of disability: African perspectives
- Distance education and the use of information and communication technologies (ICTs)
- Quality assurance in distance education and ethical imperatives
- Supporting students’ transition through the academic journey
RESEARCH AT GRASS ROOTS — FOR THE SOCIAL SCIENCES AND HUMAN SERVICES PROFESSIONS

Fifth edition
C.B Fouché, H. Strydom & W.J.H. Roestenburg (Editors)
550 pages; 2021
ISBN: 978 0 627 03821 1 – R695.00
eISBN: 978 0 627 03822 8 – R625.50

A comprehensive, local and easy-to-use guide to research. Highlights methodological decisions common to both the qualitative and quantitative approaches, those unique to each, and those which combine the two. Aimed at both novice and experienced researchers in the social sciences and human services professions.

Contents include the following:

• Ethical conduct in research with human participants
• Debates and developments in the field of big data sets
• Latest trends in thematic and narrative inquiry
• Contemporary data collection methods
• Mixed methods research
• Evaluation research
• Intervention research
• Participatory research
An introduction to the world of research, specifically as applied in the discipline of economics. Provides step-by-step examples using different types of case studies, data and analytical tools. Aimed at senior undergraduate up to postgraduate-level students.

Contents include the following:

- Understanding research as decoded into business and economic sciences
- Ethics of and in research (research ethics)
- Types of research, research design, research methods
- Emerging techniques (e.g. big data/machine learning)
- Data management, analysis and inferences
- Quantitative research methods and application
- Qualitative research methods and application
- Mixed methods application
- How to write a research proposal
UNDERSTANDING RESEARCH – AN INTRODUCTION TO READING RESEARCH

Second edition
C. Bertram & I. Christiansen
249 pages; 2020
ISBN: 978 0 627 03726 9 – R375.00
eISBN: 978 0 627 03727 6 – R337.50

An introduction to reading and contemplating published research. Introduces key concepts to promote better understanding and helps develop the conceptual knowledge and skills necessary to evaluate research carefully and critically. Aimed at students in the social sciences and education who want to learn more about reading and understanding research.

Contents include the following:
• The purpose and characteristics of educational research
• Different research paradigms
• Design and various styles of research
• Methods of collecting data
• Analysing, interpreting and presenting both qualitative and quantitative data
• Quality criteria
• Ethics and intersectionality
An essential text for honing writing, reading, researching and studying competencies to increase chances of university success. Includes examples and practical assignments. Aimed at first-year college and university students.

Contents include the following:

- Description and interpretation
- Comparison and contrast
- Exhortation and argumentation
- Exam preparation
- Research and references
- Sentence construction, paragraph development and essay writing
- Listening and note-taking skills
- Chicago Manual of Style referencing system
ACADEMIC LITERACY – PREPARE TO LEARN

Second edition
A. Weideman
237 pages; 2006
ISBN: 978 0 627 02690 4 – R455.00
eISBN: 978 0 627 02830 4 – R409.50

Skills, competencies and learning strategies for, primarily, first-year students at tertiary institutions in South Africa. Can also be used in follow-up support courses or in academic writing centres. Will appeal to lecturers with large classes, as well as to tutors dealing with smaller groups.

Contents include the following:
• Speaking and listening skills
• Learning strategies and information gathering
• Building an academic vocabulary
• Reading for academic understanding
• Writing
COMPLETING YOUR THESIS – A PRACTICAL GUIDE

N. Bak
176 pages; 2004
ISBN: 978 0 627 02557 0 – R470.00
eISBN: 978 0 627 03157 1 – R423.00

A step-by-step discussion of the technical requirements and the various stages of developing a research proposal, writing the thesis and preparing it for examination.

Contents include the following:

• Developing and submitting a research proposal
• Negotiating and sustaining the supervision and thesis-writing process
• Working with focus
• Developing academic discernment
• Preparing the thesis for examination
• General advice about writing and presenting a thesis
A practical workbook on the process of research writing and the journey a dissertation researcher has to take. Underlying themes are scholarship, thinking and writing. Aimed at students completing Master’s degrees, doctoral candidates and also supervisors of research.

Contents include the following:

- Dissertation “skills”, genre and requirements
- Metacognitive skills
- Creativity and ideas
- Problem/purpose statement and questions
- Broad perspectives in research
- Proposals
- Arguments in a dissertation
- Literature reviews
- Analytic strategies
- Presenting data
- Ethics and integrity
- Criticism
- Findings/conclusions
- Coherence
- Revision
- Submitting for examination
FINDING YOUR WAY IN ACADEMIC WRITING

Second edition
E. Henning, S. Gravett & W. van Rensburg
147 pages; 2004
ISBN: 978 0 627 02583 9 – R435.00
eISBN: 978 0 627 02928 8 – R391.50

How to apply knowledge sourced from literature, as well as from data in field research, to writing performance. Aimed at novice researchers in the social sciences and the humanities.

Contents include the following:
- Structuring the writing of a research project
- Investigating a topic
- Managing the search for literature resources
- Reading a way into academic writing
- Applying knowledge by making and managing notes
- Organising ideas at sentence level
- Crafting paragraphs and other units of text
- Developing an argument and an academic style
- Writing for a field study
- Integrating a field study with a literature study
FINDING YOUR WAY IN QUALITATIVE RESEARCH – A BEGINNER’S GUIDE

E. Henning, W. van Rensburg & B. Smit
192 pages; 2004
ISBN: 978 0 627 02545 7 – R485.00

An introduction to more than just methods and techniques in qualitative research. Also includes how to look for topics, position an investigation in a theoretical frame, practise writing as a process of conducting an inquiry, and develop a sense of self as a social researcher. Builds competence through reading and doing. Aimed at novice researchers.

Contents include the following:

• Why conduct a qualitative inquiry?
• Theoretical frameworks, conceptual frameworks and literature reviews
• Methods and methodologies: types or genres of design
• Capturing data by interviewing
• Capturing data through observation and in artefacts and documents
• Making meaning of data: analysis and interpretation
• Designing for optimal interpretation and validity
THE NEW MACRO ENGLISH AID – LANGUAGE, GRAMMAR AND GENERAL KNOWLEDGE

Fourth edition
I. Uys
352 pages; 2011
ISBN: 978 0 627 02827 4 – R475.00
eISBN: 978 0 627 02925 7 – R427.50

Combines information about language and general knowledge, usually found in numerous separate reference texts such as dictionaries and encyclopedias, in a single volume. Aimed at learners, students, parents and the general public alike.

Contents include the following:
• Language: punctuation, tenses, degrees of comparison, direct and indirect speech, derivations, synonyms and antonyms
• General knowledge: currencies around the world, inventions, chemical elements, conversion tables, planets, presidents and prime ministers, capital cities, the seven wonders of the ancient world
A practical handbook designed to take the nonproductive writer and turn him or her into a prolific one. Deals with writer’s block, procrastination and making time to write. Provides explanations, research and activities to encourage exploring, thinking, speculating, testing, documenting, questioning and developing authority. Aimed at postgraduate students in all disciplines at universities and universities of technology who are required to write for research purposes, as well as supervisors and academic staff.*

*Productive writing complements two earlier research books by Cecile Badenhorst, Research writing and Dissertation writing, and focuses on important aspects of research that are not covered in those books.

Contents include the following:
- Publish or perish: academics writing
- Fear and fantasy: students writing
- What productive writers do tacitly
- The shadow world of peer review
- Self-regulation and writing
- Self-belief and writing
- Handling criticism
Theory and practice of writing a research paper linked through practical but creative activities. Includes activities for postgraduate dissertation writers.

**Contents include the following:**

- Writing identity
- Research paper specifics
- Conceptualising research
- Making writing easier
- Creative techniques
- Getting started
- Structure
- Clear arguments
- Feedback
- Beginnings and endings
STUDY POWER – MASTERING THINKING AND STUDY SKILLS

L. Beekman
112 pages; 2005
ISBN: 978 0 627 02616 4 – R390.00
eISBN: 978 0 627 03151 9 – R351.00

Strategies and skills to promote meaningful and deep-level learning. Teaches learners to think and then to transfer these skills to develop practical study skills. Includes problem solving and life skills. Written for outcomes-based learning objectives.
UNDERSTANDING SOCIAL RESEARCH

J. Mouton
288 pages; 1998
ISBN: 978 0 627 02163 3 – R630.00
eISBN: 978 0 627 02916 5 – R567.00

The standard stages in the research process and the methodological principles that underlie each of them. Explains the fundamental logic of social research in a new and simple way. Emphasises the role of research design in maximising the validity in all decision making in research (an exceptional feature).
YOUR GUIDE TO CASE STUDY RESEARCH

P. Rule & V. John
160 pages; 2011
ISBN: 978 0 627 02789 5 – R345.00
eISBN: 978 0 627 03004 8 – R297.00

A practical, step-by-step guide to conducting a case study and a critical engagement with key research issues. Provides both practical and theoretical perspectives and draws on African examples to illustrate the approach. Aimed at researchers, academics and research students in the social sciences and education.

Contents include the following:

• Understanding case study (definitions, types, strengths and limitations)
• Developing a focus
• Dealing with context and generating questions
• Data gathering methods and strategies of data analysis and interpretation
• Addressing issues of power, ethics, trustworthiness and generalisability
